The Laurel Chamber of Commerce tries to place vendors strategically in order to avoid duplication of products in the same area. However this is not always possible as some vendors sell a wide variety of products, which include duplications. Also some vendors and organizations give away some products (such as water) without charge. Please be aware that the Laurel Chamber of Commerce assumes no control, nor offers any suggestions, regarding what vendors do with their own products. You must include all items you intend to sell from your vendor spot on your application. If your application is not completely filled in, it will be returned to you delaying issuing you a spot.
